## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: It is known in the art of internal combustion engines to use an optical device to sense the position of the air throttle. See for example US 5852996, col. 2, line 50 or US 5606950, col. 12, lines 3-8. However, the prior art neither teaches nor suggests using an optical device for sensing the position and speed of a dial plate attached to a control knob which sets an engine speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
